

PURPOSE OF THE REFLECTIONS

«The book *The “New Earth”* is not to be read like other books. Its contents are a “Message” that the Lord gives us so that we may reflect on the ORIGIN, BEGINNING and END of all that exists, thus coming to know the first *cause* of the *effects* we suffer and, in this way, we may be able to know ourselves, in order for us to come to the consciousness of what we are and of the “moment” that has been our lot to live and, by *consciously* exercising our free will, we may make, likewise consciously, the choice of our destiny, if we really want to attain the true Liberty of the Children of God, which is to be found in the unity of the Being, the One who “IS”....

The Lord also let me know that, for this reason, it was necessary to do some Reflections on the basis of questions and answers.... The purpose of these Reflections with questions and answers is that people, in endeavoring to answer the questions, may go within, delving deeply into their inner being, so that “the fountain of life” that in each one has remained “sealed,” inactive, may spring up. Of course, this “springing up” of the fountain depends on one’s interest and on the effort at going-within that each one makes in answering – answering, not from one’s reason, but with the determination and persistence to continue searching within oneself until the answer comes through intuition.»

«Don’t acquire knowledge you are not
disposed to live; you would be burdening yourself
with debts you will someday have to pay.»

«You must discover the Truth in yourself,
for this is the only truth you can live.»

«You can live
with your back to the Being
but you will always
be facing yourself.»

«You cannot live the convictions of others,
but you are responsible
for the living out of your own convictions.
Live what you believe!»

«You will not be judged for what you believe,
but certainly for what you are.»
